

Lebara welcomes new customers with double data volume

Mobile Internet in XXL format: Anyone who opts for one of ten tariffs between 6 April and 30 June 2021 will receive a surf bonus as a welcome gift and double the data volume in the Komplett M tariff

Düsseldorf, 07 April 2021 - Whether actively out and about due to the sunny spring weather or particularly involved at home due to home office and home-schooling - the data volume plays a particularly important role for many people to be connected, especially right now. This is precisely why the prepaid specialist [Lebara](#) has designed its tariffs in such a way that new customers receive that little bit extra for mobile surfing on the Internet for a limited time. With the aim of supporting them as best as possible in the beautiful and currently also challenging things.

From 6 April to 30 June 2021, there is a special promotion with the leading provider for calls to other countries: With a total of ten tariffs, Lebara is giving its new customers data volumes of up to 6 GB. The benefits for users of the Komplett M tariff is particularly impressive: Here, every new customer receives double the data volume, i.e. 10 GB instead of the usual 5 GB, as well as 250 free minutes to other countries (50 countries) for the price of €19.99 for 4 weeks.

All tariffs are always valid for four weeks and include the additional free data volume. The Komplett S Flat, Komplett M, Komplett L and Komplett XL tariffs even include an Allnet-Flat to all German networks and free minutes to 50 countries. The special thing about all the tariffs that are available to choose from: Customers benefit from the best D-network quality including LTE and the whole thing without any contractual obligations.

Pay only once, surf twice as much mobile

Anyone who registers a new number as a new customer by 30 June will benefit from this attractive offer. As the tariffs have a term of four weeks as always, the offer can be extended several times within the promotional period if desired - always with the extra data volume on top.

“Whether social media, instant messaging or classic internet surfing - we want to give our customers the opportunity to use the most important communication channels on the move without limiting themselves because of the data volume,” explains Clas Jepp, Managing Director, at Lebara. “That’s why we’ve put together a comprehensive

package of ten different value-for-money tariffs from which each customer can choose the one that best suits their individual requirements.”

The tariffs have been available since yesterday at all Lebara retail partners nationwide and online at the following link:

About Lebara: Prepaid Telephony for Global Citizens in Germany

Lebara is the universal brand for people whose families, friends, colleagues and business partners are spread across several countries. Lebara helps them to stay connected across borders, generations and cultures. Founded in 2001, the Lebara Group has developed over the past few years into an established telecommunications provider in five European countries. Lebara's products are easy to understand and very competitively priced, making it easy for customers to stay in touch with their international families and friends - simpler and cheaper than ever before. In Germany, Lebara markets prepaid SIM cards with no contractual obligations, which are particularly suitable for making cheap calls to other countries. Customers can book monthly tariff packages with Allnet-Flat and data volume according to their needs and wishes.
