Extra options

All costs of activated extra options such as
calling and texting abroad and faster mobile
internet. You pay these costs the first month
in advance, then afterwards.

For example, if you turn on an extra option in
January, this cost will appear on your invoice
that same month. From February, you pay
the extra option a month later. So these
costs will not appear on your invoice until
March.

Subtotal (1)

The subtotal of all your Sim Only
subscription costs, including charges for any
extra options you have activated.

Out-of-bundle usage

Here you see all the costs you incur outside
your bundle. For example, making calls when
your bundle is empty.

Payments

When you activate your subscription, the
month has often already started. Still, the
first time you pay, it's for the whole month
of your subscription. On the second invoice,
you will get a refund for the days you did not
use your subscription. This can be found
under the heading payments.

For example, if you activate your Sim Only
on 6/1/2023, then you get 5 days back, or
€2.50. (€15.50/31 days x 5 days).

Good to know: settlements always refer
to the previous month. So your February
bill will only show possible settlements
from January.

Do not transfer money to our account.
If the direct debit failed, then use the
payment link in the reminder e-mail.

Total including VAT

The total amount of your invoice include
VAT.
