

# LEBARA SIM ONLY

**Factuurdatum:** 01-02-2022  
**Factuurnummer:** NL-1234567  
**Mobiel nummer:** 06-12345678  
**Contract ID:** 100001

## Invoice details

Under this heading you will find the invoice number, the invoice date, your contract ID and the mobile phone number of your subscription. If you have a business subscription then you will also see the VAT number and the KVK number of your company here.

## Extra options

Here you see the costs of the extra options you have selected, such as calling and texting abroad and faster mobile internet. You always pay these costs in advance of the first month and then thereafter.

For example, if you activate an extra option in January, the costs will appear on your bill that same month. As of February, you pay for the extra option one month later. These costs will therefore only appear on the March invoice.

## Return amounts

Here you will find possible return amounts you will receive from us. For example, if you activated a subscription on the 6th of the month. In that case, you pay for the whole month, but on your second invoice you get a refund for the days you did not use your subscription.

In this example invoice, this concerns 5 days, with a total of €2.50 (€15.50/31 days x 5 days).

**Good to know:** return amounts always relate to the previous month. On your February invoice you will therefore only find possible offsets from January.

Do not transfer money to our account. Did the direct debit fail? Then use the payment link in the reminder e-mail.

## Contact information

Here you find your name and address. If you have a business subscription then you will see the name and address of your company here.
